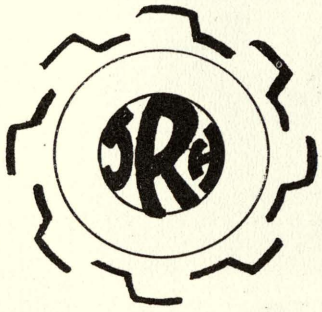
FOUR BECOME ONE

The "Arrow" is proud to honor all those fine people who contributed in any way to the creation of our new school district—Buena Vista #9, and to the approval of the building program now under way.

It is quite impossible to list separately all people who helped because over 94% of our citizens who voted approved the merger and over 89% of our voting citizens approved the building program.

We can list several and can express appreciation and thanks to them and to all others who helped. Everyone interested in our schools can and should be proud of our people who well know local control requires local support in time, money, and effort.

The sixteen members of the former school boards of the four Buena Vista districts called in for advice, information, and help many area citizens. When the various committees had reached conclusions on various ways to solve our school problems a joint citizens committee headed by Mr. William Shillaire called together all citizens of our present district to a large public meeting. At this meeting the committees reported on their findings and their recommendations. Every citizen present was offered ample opportunity for questions and comments.



RICKER GEARS

In truly American fashion the group discussed the problems and possible solutions at some length. At last reaching a decision the citizens attending this meeting concluded to 'proceed with plans to establish and maintain an independent school system adequate to offer our children the best education possible from kindergarten through senior high.'

This April resolution was followed by July's 94% vote on combining and November's 89% vote on building new schools.

The members of the former school districts—Mrs. Helen Pockel and Messers Burr, Fletcher, Gail, Gulliver, Hallman, Iamurri, Lentner, Lier, Losee, Meinecke, Molitor, Morford, Morrow, Rhode, Robins, along with the PTA presidents and members of the former districts receive our special thanks.

Where possible we have tried to include pictures of these people in the pages of the "Arrow" so all may forever keep a copy and know—'their deeds live long after them.'

It has been a privilege and a real pleasure to work with all these fine citizens who learned what they wanted to do and then proceeded to do that which they wanted.

ATHLETICS

Here the combined staffs of the "Arrow" and the Rickateer are grouped together for the yearbook picture. Actually they work as two separate staffs. Sandra and Karen Huber are the co-editors of the yearbook and Irene Princing is the editor of the newspaper.

In addition to attending daily classes in journalism, these students have spent much of their free time working on the yearbook with their advisor, Mr. Cahill.

The students have enjoyed the hard work necessary to publish the "Arrow" and hope that you all enjoy their first publication.
